LIBERO

The Innovative Library Solution

for **Your Business**

As the "knowledge manager" for the business, you have to wear many hats.

❯ You work with corporate information

❯ You provide specialised information services

❯ You manage internal resources

❯ You offer programs that benefit your organisation

❯ You develop strategies for capturing, describing and sharing institutional knowledge.

With LIBERO you can take your library information requirements to a whole new level.

- ❯ LIBERO offers staff seamless access to the business unique collection

- ❯ LIBERO enables you to achieve your objectives and create detailed reports

- ❯ LIBERO equips you with key figures on your library performance for the senior management

Valuable and credible resources for your staff and insightful reports for senior management.

LIBERO can effectively assist you with your organisational activities by providing functionalities specifically developed for corporate libraries that go beyond the classic capabilities of circulation, cataloguing and acquisitions.

Staff Self-Circulation

❯ Spend your time on more critical tasks and give staff the responsibility of circulation.

❯ Self-checkouts and reminder messages simplify the circulation process.

Keep Staff up to Date

Send automated notifications to staff when new resources that meet their specialised interests are available.

Serials Management

Streamline the management of your serials with data workflows.

- ❯ Create prediction patterns (pre-assigned due dates) to easily report serial issues not received and request them from your supplier.

- ❯ Distribute specific issues to selected staff through routing templates

- ❯ Apply multi-level budget control, enabling you to clearly allocate costs to specific departments for multiple copies of a serial.

Effortless Reporting

Analyse data by creating individual reports that give you the insights you need to convince decision-makers.

Permanent Loans

- Allow staff to hold items permanently or for a specified period of time at their desk or home.

- Relieve them of unnecessary tasks and save them the pressure of returning materials.

- And at the same time locate items when they are needed.

Suitable for One-Person-Libraries

❯ Whether you are a single user or a team, LIBERO is designed for any size of library.

❯ Should you require assistance, our Support team and our LIBERO Exchange Portal are always available to provide help.
